

NEOGEODYNAMICA BALTICA
Project No. 346

Base of Quaternary deposits of the Baltic Sea depression and adjacent areas

Map No. 2; West sheet

Scientific board:
R.G. Garetsky, E.A. Levkov†,
S. Ostaficzuk, G. Schwab†,
J. Sokolowski, W. Stackebrandt

Legend

1. Depth of base Quaternary

--- channels, probably reflecting
main parts of paleovalleys

2. Highlevel areas

3. Outermost extension of
inland ice sheets:

Topography: J.-U. Schmidt and E. Volkmann,
using topographic maps of Europe 1:1.500.000

Cartography: J.-U. Schmidt, E. Volkmann, M. Weiss-Zorn,
(Geological Survey of Brandenburg, Kleinmachnow)

scale 1:1.500.000

edited by: Geological Survey of Brandenburg, Germany
Kleinmachnow 1998/2000

Coordinators: A.K. Karabanov, Inst. Geol. Sc. NASB, Belarus;
A.O. Ludwig, G. Schwab†, Geol. Surv. Brandenburg

Regional Cooperators: M. Repecka, A. Sliupa, J. Straume† (Baltic States); A.K. Karabanov,
E.A. Levkov† (Belarus and Russia); H. Lykke-Andersen (Denmark);
A.O. Ludwig, G. Schwab† (Germany); S. Ostaficzuk (Poland);
V.P. Palijenko, A.V. Matoshko (Ukraine), using published
and unpublished materials and maps of the mentioned territories
